Statement of Reasons for Allowance

1. Claim 5, and its dependent claims 12 and 15-19, have been amended to require that at least part of an active end group of the fluoro-resin is chemically bonded with a part of the thermoplastic resin. The Seguchi reference discussed in previous office actions does not teach this bonding, and does not disclose heating the resin during kneading, and therefore would not be expected to produce a product having such bonding. JP 2003-265630, as discussed in paragraph 2 of the office action mailed 10/20/08, does produce a resinous material containing such bonding, but does not disclose or suggest combining the material with a lubricating oil.

Claim 13 is allowed for the reasons discussed paragraph 6 of the office action mailed 1/28/08. The prior art does not teach or suggest the use of polyamide 66 as the thermoplastic resin.

Claim 21 is allowed. The prior art does not disclose a seal ring comprising the claimed material.
